Bauter09@gmail.com

I am an honest, hardworking, driven individual. Recently I decided I needed a change. I took a leap of faith, left my career as an automotive technician, and enrolled and dedicated my life to becoming a full stack web developer. Every day I work hard at becoming better and better at what I do. Let me join your team and show you just what I'm capable of.

EXPERIENCE

NOVEMBER 2019- CURRENT

CODING WHENEVER I CAN

Whether its for my bootcamp, or to practice applying my knowledge, I work to improve my coding every day. I have experience researching, producing, debugging, and collaborating. Constantly working to evolve my portfolio.

NOVEMBER 2015 – SEPTEMBER 2019

AUTOMOTIVE TECHNICIAN, LABELLE AUTOMOTIVE

Youngest Service technician at a local shop. Responsible for vehicle service in lubrication, brake repairs, suspension service, alignments, HVAC systems, electrical diagnostics, and vehicle safety inspections.

NOVEMBER 2010 – AUGUST 2015

GENERAL SERVICE TO B CLASS AUTOMOTIVE TECHNICIAN, FIRESTONE COMPLETE AUTO CARE (BROOKFIELD SQUARE, MENOMNEE FALLS, WAUWATOSA).

Started as a general service technician while going to school at WCTC for "Automotive Technologies". Basic lube and tire technician. Earned ASE certifications for Steering and suspension (A4), Brake systems (A5), Electrical systems (A6), and HVAC (A7). And progressed up to "B class service technician".

EDUCATION

NOVEMBER 2019- MAY 2020

FULL STACK CODING BOOTCAMP, UNIVERSITY OF MILWAUKEE WISCONSIN

Accelerated six-month online classroom. I developed the skills needed to code and produce at a developer level. Learning to adapt and overcome obstacles in my path, how to find the answers I seek, and how to collaborate with others on team projects. Experienced in M.E.R.N. full stack, html, CSS, Javascript, Jquery, firebase, Github, and bootstrap. I take advantage

SEPTEMBER 2010

AUTOMOTIVE TECHNOLOGIES, WAUKESHA COMMUNITY TECHNICAL COLLEGE

General options (not manufacture specific) program designed to train and place future service technicians. Focusing on all aspects of automation repair to achieve “Master service technician” certification.

SEPTEMBER 2009

WELDING AND METAL FABRICATION, WAUKESHA COMMUNITY TECHNICAL COLLEGE

- This program focused on multiple forms of welding (GMAW, GTAW, SMAW, FCAW).
- Thermal Cutting (OAC, and Laser cutting).
- Basic operations of Bridgeport's, Accupresses, Accushears, Ironworker, Tube Bender, belt - sanders, tube/pipe cutter, bench grinders, and drill presses.
- Blueprint reading and Metallurgy.

January 2009 – May2009

TRIAL COURSES FOR HIGHSCHOOL STUDENTS, WAUKESHA COMMUNITY TECHNICAL COLLEGE

Trial courses for early graduation high school students in Graphic Design, Mechanical repair, and Welding fundamentals

2007- 2009,

OCONOMOWOC HIGHSCHOOL

2005-2007,

PEWAUKEE HIGHSCHOOL

SKILLS

- Coding with HTML, CSS, Javascript, JQuery, and Bootstrap
- Database experience such as Mongo and Firebase
- Github collaborator
- ASE certified in A4, A5, A6, and A7
- Shop equipment knowledge
- Mechanical knowledge
